Fixed 60lm output in Maintained mode for all variants for high energy saving

1h and 3h duration

Rest Mode and Tests via remote command

12h recharge period (24h for 3h versions)

#### Applications:

Schools, universities, commercial centers, stores, offices, public administration and all indoor generic environments

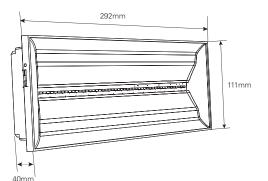

Safety antipanic lighting and escape route lighting

Exit sign with single and double side signalization

NexiLite is a range of anti-panic and escape route luminaires that can also be used as an exit sign by purchasing optional sets of pictograms (Conforms to ISO7010). The low profile housings are available in two IP rating options (IP40 & IP65) making NexiLite luminaires suitable for indoor or more industrial applications.

With its compact and modern design, NexiLite can be used in any architectural context. The wide range of accessories allows installation on a wall or ceiling, surface or recessed.

This range of LED stand-alone self-contained luminaires is composed of maintained and non-maintained variants, 1h and 3h duration versions, from 100lm up to 250lm light output.

#### The right accessory at the right time

NexiLite is equipped with a wide range of accessories to meet any installation requirement.

The standard versions, with degree of protection IP40 are suitable to be installed indoors, but thanks to the IP65 kit are transformed into outdoor luminaires for use in wet and dusty environments.

For escape sign lighting, NexiLite is equipped with a series of single side pictograms and double side panels in accordance with International Standard ISO7010 with visibility distance of 20 and 30m (EN1838).

NexiLite's single side pictograms are different from those adhesives commonly used since are positioned between the reflector and the diffuser, are free of glue and can be repositioned as desired without the formation of unsightly defects.

NexiLite LED with IP65 protection kit

The IP65 kit is compatible with all the variants. Only surface mounting. Dimension 308x125x53 mm
