

MENSOLA PER ACB, 800X600

CATALOG NUMBER

MSCC0806

The galvanised steel shelf, MSCC, covers a partial depth of an enclosure and is ideal for equipment requiring strong fixation, such as heavy air circuit breakers. It leaves the rear of the enclosure accessible for easy installation and wiring.

FEATURES

Descrizione: Shelf to mount air circuit-breakers, fixed or withdrawable version and MCCB's version in cassette. The shelf has ventilation slots to allow air circulation in the section. It can be mounted only if we have internal side panels MSPSxx06 in both sides. Adjustable height position in steps of 25mm. It can not be used with the front covers system, if it is necessary to increase the internal segregation or limit the access, we recommend to use top and bottom shelf and 3 partial doors to separate the incoming, ACB and outgoing subsections.

Materiale: 2 mm galvanised steel.

Fornitura: 1 piece with mounting material.

The free space behind the shelf allows customers to easily install incoming and outgoing cables and/or busbars

In order to mount the shelf, internal side panels (MSPS), are required
