Supports for single or double bar per phase for bar thickness 10 mm, and width from 10 to 120 mm. Distance between bars of 20 mm.

Materiale: Polycarbonate reinforced with 10% of glass material.

Fornitura: Busbar support for 3 phases and neutral, and mounting material.

Distance between bars of 20 mm

Material: Polycarbonate reinforced with 10% of glass material

Delivery: Busbar support for 3 phases and neutral, and mounting material

Horizontal main busbar support for 2 bars up to 120 x 10 mm, which can be mounted at the required height behind any system (fix, modular or plug-in)

The standard supports are available off the shelf and have been tested according to IEC 61439

The supports are suitable for the most common bars on the market

Main busbars can be installed in the middle of the enclosure height, which will reduce the required busbar section

A flexible and reliable solution that ensures procurement, design and installation can be done efficiently reducing the labour time required

Internal side panels (MSPS) are required in order to mount the busbar supports

PRODUCT ATTRIBUTES

Height: 300 mm

Width: 95 mm

Material: Polycarbonate
