

### Per fori nelle lamiere

#### Profilati passacavi

I profilati passacavi si usano ogni qual volta si debbano far passare cavi e fili attraverso aperture e fori. I passacavi HellermannTyton garantiscono un'ottima protezione meccanica.

#### Caratteristiche del prodotto

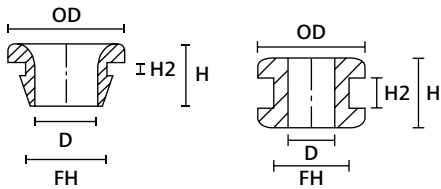

- Protegge i cavi dagli spigoli taglienti
- Elevata protezione meccanica
- Flessibile e facile da applicare
- Elevata resistenza agli agenti atmosferici e chimici

Profilati passacavi.
