Valid from: 01.04.2019	IEC compensating cable KP 11 L-SIL-S 2x1,5	

Application

The compensating cable KP 11 L-SIL-S 2 x 1,5 mm² is a silicone and glass fibre insulated cable which transmits the thermoelectric voltage of PtRh/Pt thermocouples. It is for flexible use and fixed installation in dry rooms with medium mechanical load. It may only be installed outdoors with UV- and humidity protection and in observation of the max. permitted temperature range. The steel wire armouring serves as mechanical protection.
