INSTRUCTIONS FOR CORRECT ASSEMBLY, USE AND MAINTENANCE

WARNING: This instruction sheet must be consulted and retained by the person responsible for installation and ordinary and extraordinary maintenance. Before beginning installation or maintenance operations switch off the mains supply. All these operations must be carried out by a specialised technician. Tampering or modifying the product or failing to comply with the instructions below will void the guarantee and could render the product dangerous. Given that this fixture may reach high temperatures it is important to ensure that persons, animals or other objects do not come into direct contact with it. I-lèd disclaims all responsibility for damage caused by products that have been not been assembled in compliance with the instructions.

WARNING: For the composition to have a great visual effect when switched on, it has to be internally masked. Before doing this, first remove the diffuser. For dual emission articles, you must also remove the top diffuser.

[17] Mask the joint intersections using the adhesive felt pad provided. Four adhesive felt pads are provided. Two whole ones are to be applied to the bottom part, while two pieces to be applied to the top part **[18]**.

[DETT.1] Example of mask applied.
