Gender Changeover

1   **Female** = Pins retracted

Pins retracted
Remove outer housing per polarity changeover instructions.

2   **CAUTION!** Only Panduit tool is to be used for gender change. Use of any other tool can cause fiber damage and will void the product warranty.

Pin retraction tool
hole

Locate hole in the inner housing on the slotted side and position pin retraction tool over the hole.

3

Gently

Male = Pins extracted

Pins extracted
Insert tool into hole, press down gently, and push forward to advance connector pins to the male state. Repeat process in opposite direction to retract pins for female state.

4
Re-install outer housing in the correct orientation. See polarity changeover instructions on page 1.
