

# Base for read/write station

## U-P3-RX

- Degree of protection IP67
- With serial interfaces RS 232 and RS 485

Base with serial interfaces RS 232 and RS 485

### Function

The base is used in combination with an upper part, the IPT\*-FP read/write station. Either an RS 232- or an RS 485-interface is available. The read/write station is connected to a higher-order control system via the serial interface and receives the commands for writing and/or reading code or data carriers via this interface.
