

Dimensions

Model number

VAA-2E1A-G10-SAJ/EA2J-1M

G10 safety module
2 safety inputs and
1 standard electronic output

Features

- Connection of contact safety switches, e.g. EMERGENCY STOP button
- Applications up to PL_e
- Modular safety solution
- Ultra-compact enclosure
- Degree of protection IP67

Electrical connection

Indicating / Operating means

- ① status display AS-Interface
- ② error display
- ③ switching state inputs
- ④ switching state output

Release date: 2019-08-23 15:29 Date of issue: 2019-08-23 229182_eng.xml

Technical data

General specifications

Slave type	Safety-Slave
AS-Interface specification	V3.0
Required master specification	≥ V2.1
UL File Number	E223772 "For use in NFPA 79 Applications only"

Indicators/operating means

LED FLT	error display; LED red red: communication error or address is 0
LED AS-i	AS-Interface voltage; green LED green: voltage OK flashing green: address 0
LED IN	switching state (input); 2 LED yellow
LED OUT	Switching state (output); LED yellow

Electrical specifications

Rated operating voltage	U_e	26.5 ... 31.6 V from AS-Interface (PELV)
Rated operating current	I_e	≤ 90 mA
Protection class		III
Surge protection		overvoltage category III
Rated insulation voltage		32 V
Pulse withstand voltage		0.8 kV

Input

Number/Type	2 safety-related inputs for mechanical contacts, crossed-circuit monitored: 2 single-channel contacts: up to category 2/PL c to ISO 13849-1 or 1 2-channel contact: up to category 4/PL e to ISO 13849-1
Supply	from AS-Interface
Voltage	20 ... 30 V DC pulsed
Current	input current limited ≤ 15 mA, short-circuit protected

Output

Number/Type	1 conventional electronic output, PNP
Supply	from AS-Interface
Voltage	$(U_{ASI} - 7.0 V) \leq U_{OUT} \leq U_{ASI}$
Current	50 mA, short-circuit/overload protected

Directive conformity

Electromagnetic compatibility	
Directive 2014/30/EU	EN 62026-2:2013 EN 61000-6-2:2005 EN 61000-6-4:2007
Machinery Directive	
Directive 2006/42/EC	EN ISO 13849-1:2015 EN ISO 13849-2:2012 EN 62061:2005 + AC:2010 + A1:2013 + A2:2015

Standard conformity

Degree of protection	EN 60529:2000
Fieldbus standard	EN 62026-2:2013
Electrical safety	IEC 61140:2009
Emitted interference	EN 61000-6-4:2007
AS-Interface	EN 62026-2:2013
Noise immunity	IEC 62026-2:2013 EN 62061:2005 EN 61000-6-2:2005
Functional safety	EN ISO 13849-1:2015 EN ISO 13849-2:2012 EN 62061:2005 + AC:2010 + A1:2013 + A2:2015

Programming instructions

Profile	S-7.B
IO code	7
ID code	B
ID1 code	F
ID2 code	0

Data bits (function via AS-Interface)	input	output
D0	dyn. safety code 1	OUT 1
D1	dyn. safety code 1	-
D2	dyn. safety code 2	-
D3	dyn. safety code 2	-

Parameter bits (programmable via AS-i)

Parameter	function
P0	communication monitoring P0 = 1 (default settings), monitoring = ON, i.e. if communication fails, the outputs are de-energised P0 = 0, monitoring = OFF, if communication fails, the outputs maintain their condition
P1	not used
P2	not used
P3	not used

Ambient conditions

Ambient temperature	-20 ... 60 °C (-4 ... 140 °F)
Storage temperature	-25 ... 80 °C (-13 ... 176 °F)
Relative humidity	< 95 %
Altitude	≤ 2000 m above MSL

Function

The VAA-2E1A-G10-SAJ/EA2J- * is an AS-Interface safety module with 2 safety-related inputs and one conventional output. A two-channel mechanical switch or a single channel mechanical switch each can be connected to the two safety-related inputs. The output is a conventional electronic non-safety-related output, which can be loaded with 50 mA.

The module is suitable for remote connection of switches in very limited space. The one-piece housing provides a degree of protection of IP67.

The connection to the AS-Interface cable is achieved by means of insulation piercing method of the inserted flat cables. The inputs and the output are connected via open cable ends.

To display the current switching state, there is a LED for each channel mounted on top of the module. A LED indicating the AS-Interface communication and the address 0 of the module is also available. If a communication error occurs, the outputs are switched off (only at P0 = 1).

The module can be used up to Category 4/PL e according to ISO 13849-1, SIL 3 according to EN 62061.

If two single-channel switches are connected, the module can be used up to Category 2/PL c according to ISO 13849-1, SIL 1 according to EN 62061.

Accessories

VBP-HH1-V3.0-KIT

AS-Interface Handheld with accessory

VAZ-PK-FK-0,2M-V1-W

Adapter cable G10 module/hand-held programming device

Matching system components

VAZ-2E1A-F85A-S

Emergency stop button

Shock and impact resistance	30 g, 11 ms in 6 spatial directions 3 shocks 10 g, 16 ms in 6 spatial directions 1000 shocks
Vibration resistance	0.75 mm 10 ... 57 Hz, 5 g 57 ... 150 Hz, 20 cycles
Pollution degree	3
Mechanical specifications	
Degree of protection	IP67 This protection class is achieved by using the AS-Interface flat cable VAZ-FK-S-YE
Connection	AS-Interface: AS-Interface flat cable Inputs/outputs: open conductor ends
Material	
Contacts	open conductor ends with connector sleeves
Housing	PBT
Cable	PUR
Mounting screw	Stainless steel 1.4305 / AISI 303
Cable	
Sheath diameter	Ø4.8 mm
Bending radius	> 8 x cable diameter, fixed > 10 x cable diameter, moving not appropriate for conveyor chains
Color	black
Cores	6 x 0.25 mm ²
Length	L 1 m
Mass	200 g
Tightening torque, fastening screws	1.65 Nm
Approvals and certificates	
UL approval	cULus Listed, Type 1 enclosure

Notes

Functional safety related parameters

Operating mode	1-channel	2-channel
Safety Integrity Level(SIL)	SIL 1	SIL 3
Performance Level (PL)	PL c	PL e
Category	Cat. 2	Kat. 4
MTTF _d	100 a	no significant contribution to
PFH _d	2,3 x 10 ⁻⁷	MTTFd, PFD or PFH of the
PFD	1,6 x 10 ⁻¹³	overall system
Safe reaction time	< 300 µs	< 300 µs
Diagnostic coverage	80 %	-
Design Lifetime	20 a	20 a

Safety Instructions

If a single-channel switch is used, the module is suitable for use up to category 2/PL c in accordance with ISO 13849-1, or SIL 1 in accordance with EN/IEC 62061. Only tested and certified power supplies with safe isolation may be used to supply power. These power supplies must have PELV voltage in accordance with EN 50295 / IEC 62026-2, and a minimum MTBF of 50 years. The power supplies are designed to exclude a short circuit between the primary and secondary sides.

Mounting Instructions

You may screw the device onto a level mounting surface using two M4 attachment screws. The attachment screws are not included.

Lay all cables in accordance with EN/IEC 60204.

Do not use the outputs for safety-related functions.

Do not connect inputs and outputs, which are supplied via the module from AS-interface or via auxiliary power, with power supply and signal circuits with external potentials.

See the manual for a guide to the intended use.
