- Compatible with all process control systems
- 2 solenoid valves can be connected
- Weatherproof housing for outdoor applications
- Rugged metal base
- Temperature range -40 ... 167 °F (-40°C to 75°C)
- 2-wire DC sensor with minimum off-state current
- LEDs for switching state of sensor and solenoid valve
- Plug-in terminals
- 1/2" NPT conduit entrance

Installation

The connections to this sensor are sealed with stopping plugs to protect against dirt and moisture. If not all of the connections are used in your application, then seal the remaining stopping plugs on the sensor permanently or check during initial installation and when performing regular maintenance work that the stopping plugs are secure and impermeable. If necessary, tighten the stopping plugs to a torque of 1 Nm.
