

Ethernet switch unmanaged gigabit ICRL-U-5RJ45-G-DIN

- Five - Gigabit ports
- Rugged housing for use in harsh environments
- 9K bytes jumbo frame for large file transfers
- Power event alarm
- Wide power input 10-60V DC
- Suitable for PROFINET IO and EtherNet/IP

Ethernet unmanaged switch with 5 RJ45 gigabit ports and fault alarm

Function

The ICRL-U-5RJ45-G-DIN is a compact unmanaged industrial switch with five 10/100/1000BASE-T(X) ports, which ensures high switching performance and easy installation. Along with its high switching performance, it supports multiple internal performance features, such as 9K bytes Jumbo Frame, Flow Control, it ensures quality traffic transmission.

The switch is designed for operating reliably under harsh environments, it supports one alarm relay to indicate fault conditions when a power failure occurs, users can quickly handle the emergency and shorten the failover time. It has an IP31 rugged metal housing that provides great injection protection and heat dispersion capability that supports a wide operating temperature range, and it complies to EN50121-4 Track Side Standard so that can ensure the EMC protection capability.

Dimensions

Technical Data

General specifications

| | |
|----------------|------------|
| UL File Number | E185778 |
| MTBF | 44.5 years |

Ethernet Interface

| | |
|--------------------|---------------------|
| Auto-MDI(-X) | yes |
| Autonegotiation | yes |
| Ethernet Interface | Industrial Ethernet |

Release date: 2024-09-04 Date of issue: 2024-09-04 Filename: 70114054_eng.pdf
