

RFID read/write device

IQH3-FP-V1

- Range up to 30 cm
- Operating frequency 13.56 MHz
- Conforms to ISO 15693
- LEDs as function indicators
- Multi-tag reading of up to 20 tags ensures increased productivity
- For connection to IDENTControl evaluation unit
- Degree of protection IP67

HF RFID read/write device, ISO 15693, for IDENTControl

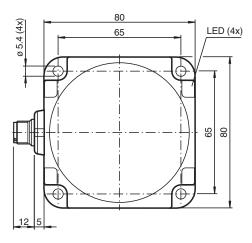

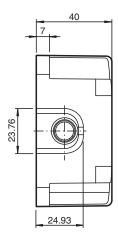

Dimensions

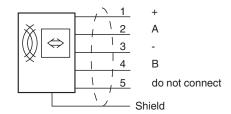

Technical Data

| Operating frequency 13.56 MHz Transfer rate 26 kBit/s Sensing range ———————————————————————————————————— | General specifications | |
|---|----------------------------|---------------------------------|
| Sensing range 0 300 mm (see manual) Write distance 0 300 mm (see manual) Width max. 300 mm MTBF 97 a (Operation at +40 °C) Indicators/operating means ED green LED green Power on LED yellow Read/write operation successful LED red status display LED blue Transmission mode Electrical specifications Current consumption ≤ 700 mA Supply from the IDENTControl | Operating frequency | 13.56 MHz |
| Read distance 0 300 mm (see manual) Write distance 0 300 mm (see manual) Width max. 300 mm MTBF 97 a (Operation at +40 °C) Indicators/operating means EED green LED green Power on LED yellow Read/write operation successful LED red status display LED blue Transmission mode Electrical specifications Current consumption ≤ 700 mA Supply from the IDENTControl | Transfer rate | 26 kBit/s |
| Write distance 0 300 mm (see manual) Width max. 300 mm MTBF 97 a (Operation at +40 °C) Indicators/operating means LED green Power on LED yellow Read/write operation successful LED red status display LED blue Transmission mode Electrical specifications Current consumption ≤ 700 mA Supply from the IDENTControl | Sensing range | |

Operation is subject to the FCC approval following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation. Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. IC approval This device complies with Industry Canada licence-exempt RSS standard(s) and with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device. Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement. ACMA approval **CERT-7285** ETA-SD-20230807834 WPC approval Radio approval USA: Contains FCC ID IREIQR3FP Canada: Contains IC 7037A-IQR3FP **Ambient conditions** -25 ... 70 °C (-13 ... 158 °F) (Operation with nontransmission periods, adjustable) -25 ... 55 °C (-13 ... 131 °F) (Continuous transmission mode) Ambient temperature -40 ... 85 °C (-40 ... 185 °F) Storage temperature **Mechanical specifications** Degree of protection IP67 Connection connector M12 x 1 Material PA 6.6 Housing Encapsulation compound WEVO 403FL/300 Installation Multiplex on: ≥ 100 mm Multiplex off: ≥ 750 mm Distance between two heads Mass 385 g **Dimensions** Height 40 mm Width 80 mm Length 80 mm

Safety Information

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.
