# AS 4050.080 - Clamping frame

Parallel machining of enclosures in the cube machining zone of Perforex machining centres BC and Perforex milling terminals MT for shorter setup times and enhanced productivity.

## Features

|                                                           |                                                                                                                                            |
|-----------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Model No.                                                 | AS 4050.080                                                                                                                                |
| Design                                                    | Pneumatic clamping device                                                                                                                  |
| Product description                                       | Enables parallel cube machining of enclosures on Perforex machining centres BC and Perforex milling terminals MT.                          |
| Possible number of terminal Boxes for parallel processing | 3                                                                                                                                          |
| Note                                                      | Use of the clamping frame (Model No. 4050.080) in the machining centre BC (Model No. 4050.230) is only possible with the two-door variant. |
