DK 7320.248 - Wireless accessories

Various CMC-TC accessories, such as external aerials, measuring equipment, spare batteries.

Features

Model No.	DK 7320.248
Design	Spare battery for wireless sensors
Number of sensors (max.)	1
Suitable for CMC	Processing Unit II - Wireless I/O Unit
Note on Model No.	Extended delivery times.
Packs of	1 pc(s).
Net weight	0.03
Gross weight	0.043
Customs tariff number	85073020
EAN	4028177627765
ETIM 9	EC002627
ECLASS 8.0	27189253

Tender text

Spare battery Wireless sensors

The battery of the wireless sensors is designed for a battery service life of up to 5 years. After this period, a new battery may be inserted. Essentially, the battery is monitored by the system, and notifies when a replacement is needed. There are various applications in which the battery service life is shortened (constant operation of the measurement system, poor or no radio connection, operating temperature limit range).

The battery may be used for the following WL products:

Technical specifications:

Type: Lithium primary cell

Rated voltage: 3.6 V DC

Temperature application range: -25°C to +65°C
