

Profilo in alluminio estruso per alloggiare strip LED, fornito in lunghezza 2000mm, sezionabile.

Disponibile in due finiture (bianco e grigio). Prodotto che presenta profilo stondato, particolarmente adatto per installazione a plafone, parete, pavimento (schermo non calpestabile) o come sottopensile.

Da completare con diffusore in policarbonato (trasparente, opale o nero) e tappi di chiusura.

Linear profile in extruded aluminium, for placing strip LED. 2000mm long body, cut to size.

Available in two finishes (white and grey). The slightly curved body makes it suitable for ceiling, wall, floor installation (diffuser not walk-over) or as undercabinet luminaire.

End caps and polycarbonate diffuser (available in transparent, opal or blackfinish) to be ordered separately.
