

Ensure reliable power is supplied for your installation

Modicon Power Supply Modular and Optimized range

The right power supply for your equipment

Three enclosure formats are available, select the best suited to the space (depending on power). The new devices range from 10 W up to 480 W, for 5 V, 12 V, 24 V, 48 V output voltages.

Ready to fit anywhere

Modular and Optimized Modicon Power Supply devices are among the most compact on the market.

Even easier to install

Up to 6 output terminals (with different marking) make wiring much easier. The full set of product documentation is instantly available thanks to a QR code printed in front of each device. For the modular range, integrated fixing holes allow the devices to be mounted either on DIN (Omega) rail or on panel.

A robust product for peace of mind

Modicon devices can operate up to 70°C. The printed circuit board of the optimized range (book casing) has a conformal coating in order to resist to common dust and chemical pollutants.
