

# Product End of Life Instructions

## Vigilohm IMD-IM9

## Potential disassembly risks

The information provided in this document assumes that the product is completely de-energized and uninstalled (refer to the instructions provided in the appropriate product manuals).

Dismantling/disassembling the product may entail hazards caused by, for example, sharp edges, chemical aggression or ejected parts.

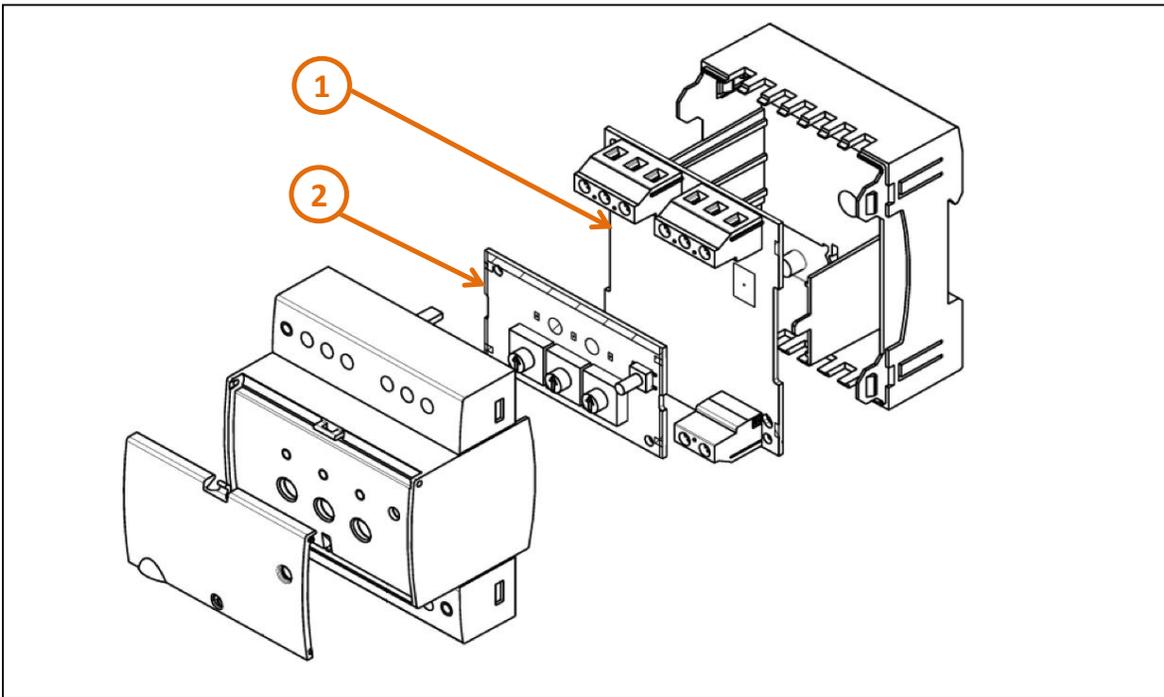

### WARNING

#### HAZARD DUE TO INSUFFICIENT PROTECTION

- Implement all safety measures required by the applicable regulations and by the processes used to dismantle/disassemble and dispose of the product.
- Use all necessary personal protective equipment such as gloves and goggles.

**Failure to follow these instructions can result in death or serious injury.**

## End of Life Instructions

| Recommendation    | Number on drawing | Component / Material | Weight (in g) | Comment |
|-------------------|-------------------|----------------------|---------------|---------|
| Potential hazards | 1                 | Power Board          | 80            |         |
| Potential hazards | 2                 | HMI Board            | 12            |         |

## Product description

|                                   |   |
|-----------------------------------|---|
| Manufacturer identification       | Schneider Electric Industries SAS   |
| Brand name                        | Schneider Electric  |
| Product function                  | VigiloHM IM9 designed to monitor ungrounded/IT electrical networks, in accordance to installation and products standards. According to standards, it is recommended to equip your systems with Insulation Monitoring Devices (IMD). |
| Product reference                 | IMD-IM9   |
| Total representative product mass | 180 g   |
| Representative product dimensions | H 90 X W 71 x D 67.5mm  |
| Date of information release       | 11/2023   |

## Additional information

|                         |  |  |
|-------------------------|--|--|
| Legal information       | The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product. |  |
| Recyclability potential | 0%   | Recyclability rate has been calculated based on REEECY'LAB tool developed by Ecosystem, for components/materials not covered by the tool, data from the "ECO'DEEEE recyclability and recoverability calculation method" was taken. If no data was found a conservative assumption was used (0% recyclability). |
