Product End-of-Life Instructions

Product Range: Tesys Additives

Marketing Model/Name: (List of multiple models if applicable)

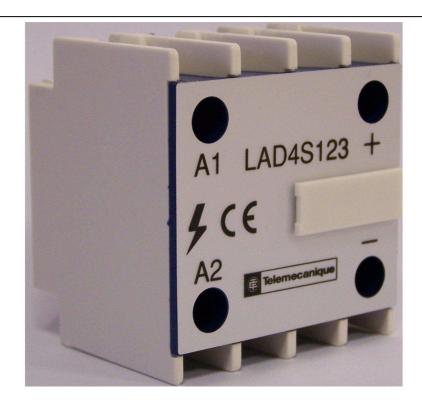

The End of Life Instruction (EOLI) covers only the LAD4S123 products. The others Tesys Additives are not impacted by the End of Life Instruction.

Purpose:

The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.

Note

This product family is not in the scope of EU directive 2002/96/EC, Waste Electrical and Electronic Equipment (WEEE).

Size in mm

H x L x D in mm: 47.5 x 44.5 x 38

Weight in g: 45g

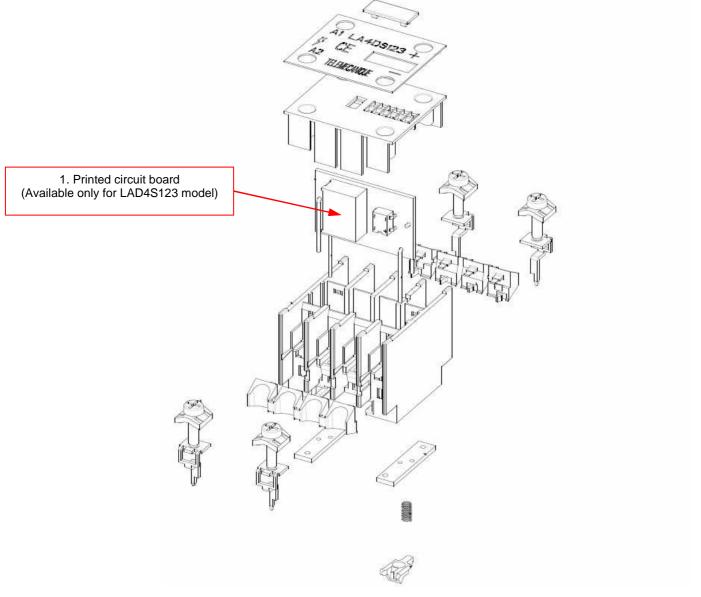

Operations recommended for the end of life treatment

There are several steps to process the products at the end of life so as to recover components, materials or energy: Reuse \rightarrow Depollution \rightarrow Dismantling \rightarrow Shredding.

The components of the products that optimize the recycling performances are listed, identified and located hereunder.

This product contains printed circuit boards which are recommended to be treated separately during the End of Life operations.

Number on drawing	Components	Weight (g)	Comment
Components listed for special treatment			
1	Printed circuit board	7.1 g	Available only for LAD4S123
