

Product End of Life Instructions

**Standard undervoltage release MN, ComPacT NSXm,
220/240VAC 50Hz, 208/240VAC 60Hz**

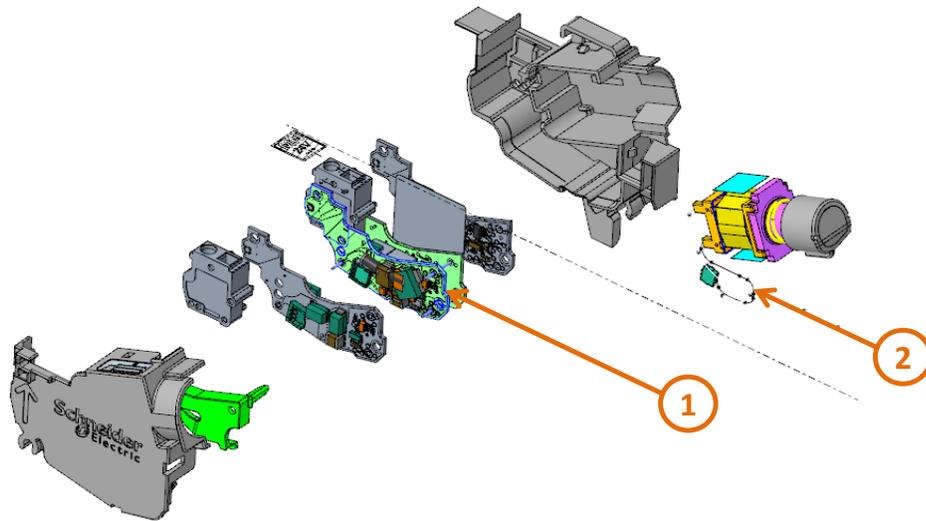

Potential disassembly risks

DANGER

HAZARD OF ELECTRIC SHOCK, EXPLOSION OR ARC FLASH

- Apply appropriate personal protective equipment (PPE) and follow safe electrical work practices. See NFPA 70E, CSA Z462 or local equivalent.
 - This equipment must only be installed and serviced by qualified electrical personnel.
 - Turn off all power supplying this equipment before working on or inside equipment. Lock the switchgear in the isolated position.
 - Always use a properly rated voltage sensing device to confirm power is off.
 - Install safety barriers and display a danger sign.
 - Replace all devices, doors, and covers before turning on power to this equipment.
- Failure to follow these instructions will result in death or serious injury.**

End of Life Instructions

Recommendation	Number on drawing	Component / Material	Weight (in g)	Comment
To be depolluted	1	Electronic Board (Communication) > 10cm ²	18.89	PCBA Board
To be dismantled	2	Cables	5.576	

Product description

Manufacturer identification	Schneider Electric Industries SAS
Brand name	Schneider Electric
Product function	The main purpose of MN NSXm is used for emergency off or failsafe remote tripping applications on ComPacT NSXm and PowerPact B devices. The MN release instantaneously opens the circuit breaker when its supply voltage drops to a value below 35% of its rated voltage.
Product reference	LV426804
Total representative product mass	55 g
Representative product dimensions	33mm x 62mm x 88mm
Accessories	No
Date of information release	12/2023

Additional information

Legal information	This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE). The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.	
In case of special transportation: transportation method	No	
Recyclability potential	33%	Recyclability rate has been calculated based on REEECY'LAB tool developed by Ecosystem, for components/materials not covered by the tool, data from the "ECO'DEEEE recyclability and recoverability calculation method" was taken. If no data was found a conservative assumption was used (0% recyclability).
