

Product End of Life Instructions

PowerLogic PM5560 Power Meter and Energy Meter

Potential disassembly risks

The information provided in this document assumes that the product is completely de-energized and uninstalled (refer to the instructions provided in the appropriate product manuals).

Dismantling/disassembling the product may entail hazards caused by, for example, sharp edges, chemical aggression or ejected parts.

⚠ WARNING

HAZARD DUE TO INSUFFICIENT PROTECTION

- Implement all safety measures required by the applicable regulations and by the processes used to dismantle/disassemble and dispose of the product.
- Use all necessary personal protective equipment such as gloves and goggles.

Failure to follow these instructions can result in death or serious injury.

End of Life Instructions

| Recommendation | Number on drawing | Component / Material | Weight (in g) | Comment |
|------------------|-------------------|----------------------|---------------|---------|
| To be depolluted | 1 | LCD Panel | 41.5 | |
| To be depolluted | 2 | PCB | 24.4 | |
| To be depolluted | 3 | Back Case | 68.8 | |

Product description

| | |
|-----------------------------------|--|
| Manufacturer identification | Schneider Electric Industries SAS |
| Brand name | Schneider Electric |
| Product function | The METSEPM5560 is a power and energy meter that provides functions to measure Energy, Active and Reactive Power, Voltage, Current, Frequency, Power Factor and up to the 63rd Harmonic. It offers an extensive array of power quality analysis features, including Total Harmonic Distortion, Total Demand Distortion measurements, and individual harmonics magnitudes and angles for voltage and current. The critical power quality parameters play a pivotal role in identifying the sources of harmonics that can potentially impact and damage transformers, capacitors, generators, motors, and electronic equipment. It also ensure the highest levels of power quality and metering precision to protect critical IT infrastructure and equipment. |
| Product reference | METSEPM5560 |
| Total representative product mass | 450 g |
| Representative product dimensions | H 96mm x L 96mm x D 72mm |
| Accessories | N/A |
| Date of information release | 01-2025 |

Additional information

| | |
|-------------------------|--|
| Legal information | This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE). The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product. |
| Recyclability potential | 7% The recyclability rate was calculated from the recycling rates of each material making up the product based on REEECYLAB tool developed by Ecosystem, for components/materials not covered by the tool, data from the EIME database and the related PSR was taken. If no data was found a conservative assumption was used (0% recyclability). |
