Product description

Manufacturer identification	Schneider Electric Industries SAS
Brand name	Schneider Electric
Product function	To be used for switching light ON and OFF automatically. The motion detector is equipped with pyro sensors that detect the invisible heat emitted from moving objects (people, animals etc.). The heat detected in this way is converted electronically into a signal to control the connected load (e.g. a light) via the KNX system and settings. The built-in red LED also lights up.
