

Product End of Life Instructions

Hospital remote panel

Potential disassembly risks

⚠ WARNING

HAZARD OF ARC FLASH OR FIRE

- Disconnect battery terminals before disassembly
- Avoid any electrical connection between the terminals

Failure to follow these instructions can result in death or serious injury.

End of Life Instructions

Recommendation	Number on drawing	Component / Material	Weight (in g)	Comment
To be depolluted	1	Electronic Board (Communication) > 10cm ²	194.01	Including all soldering parts
To be depolluted	2	Electronic Board (Communication) > 10cm ²	32	Including all soldering parts

Product description

Manufacturer identification	Schneider Electric Industries SAS
Brand name	Schneider Electric
Product function	The HRP is an accessory for operating rooms and serves as a user interface for the systems used to monitor electrical installations in hospitals. The HRP installed in the operating theater enables the hospital staff to understand whether the installation is operating or whether there is a fault.
Product reference	50168
Total representative product mass	500 g
Representative product dimensions	170mm x 170mm x 20mm
Date of information release	07/2025

Additional information

Legal information	This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE). The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.
Recyclability potential	1% The recyclability rate was calculated from the recycling rates of each material making up the product based on REEECYLAB tool developed by Ecosystem, for components/materials not covered by the tool, data from the EIME database and the related PSR was taken. If no data was found a conservative assumption was used (0% recyclability).
