

Product End of Life Instructions

PM5660 Residual current monitor meter

Potential disassembly risks

  **DANGER / PELIGRO / DANGER / GEFAHR**

HAZARD OF ELECTRIC SHOCK, EXPLOSION, OR ARC FLASH

- Apply appropriate personal protective equipment (PPE) and follow safe electrical work practices. See NFPA 70E in the USA, CSA Z462 or applicable local standards.
- Turn off all power supplying this device and the equipment in which it is installed before working on the device or equipment.
- Always use a properly rated voltage sensing device to confirm that all power is off.
- Follow guidelines in the Wiring section (5) of this document.
- Do not exceed the device's ratings for maximum limits.
- Do not use this device for critical control or protection applications where human or equipment safety relies on the operation of the control circuit.
- Never short the secondary of a voltage transformer (VT).
- Never open circuit a current transformer (CT).
- Always use grounded external CTs for current inputs.
- Do not use water or any liquid material to clean the product. Use a cleaning cloth to remove dirt. If dirt cannot be removed, contact local Technical Support representative.
- The installer is responsible for co-ordinating the rating and the characteristics of the supply side overcurrent protection devices with the maximum current rating.

Failure to follow these instructions will result in death or serious injury.

End of Life Instructions

Recommendation	Number on drawing	Component / Material	Weight (in g)	Comment
To be depolluted	1	Electronic Board (Communication) > 10cm ²	65	Including all soldering parts
To be depolluted	2	Electronic Board (Communication) > 10cm ²	19	Including all soldering parts
To be depolluted	3	LCD (surface > 100cm ²) and all those back-lighted with gas discharge lamps	42	HMI_PMDB
To be depolluted	4	Battery	1.5	NCM battery

Product description

Manufacturer identification	Schneider Electric Industries SAS
Brand name	Schneider Electric
Product function	The main function of the PowerLogic PM5660 Panel-mount C10.2 Power Meter is for measurement of 3-phase energy (import & export), Power (active, reactive, apparent), Voltage and Current, THD, Frequency, Residual Current, PF and other power measurement and quality parameters on its large 128x128 pixels LCD & intuitive navigation with 4 soft-buttons. The product has Ethernet and Serial communication modes, and on-board data logging capabilities.
Product reference	METSEPM5660
Additional similar product references	METSEPM5660 METSEPM5570 METSEPM5650 METSEPM5661 METSEPM5760 METSEPM5761 METSEPM5650VN METSEPM5660VN
Total representative product mass	490 g
Representative product dimensions	96mm x 96mm x 72mm
Date of information release	30/09/2025

Additional information

Legal information	This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE). The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.
Recyclability potential	6% The recyclability rate was calculated from the recycling rates of each material making up the product based on REEECY'LAB tool developed by Ecosystem, for components/materials not covered by the tool, data from the EIME database and the related PSR was taken. If no data was found a conservative assumption was used (0% recyclability).
