

Product End of Life Instructions

Harmony RE17 Timer Relay

Schneider
Electric

Potential disassembly risks

The information provided in this document assumes that the product is completely de-energized and uninstalled (refer to the instructions provided in the appropriate product manuals).

Dismantling/disassembling the product may entail hazards caused by, for example, sharp edges, chemical aggression or ejected parts.

⚠ WARNING

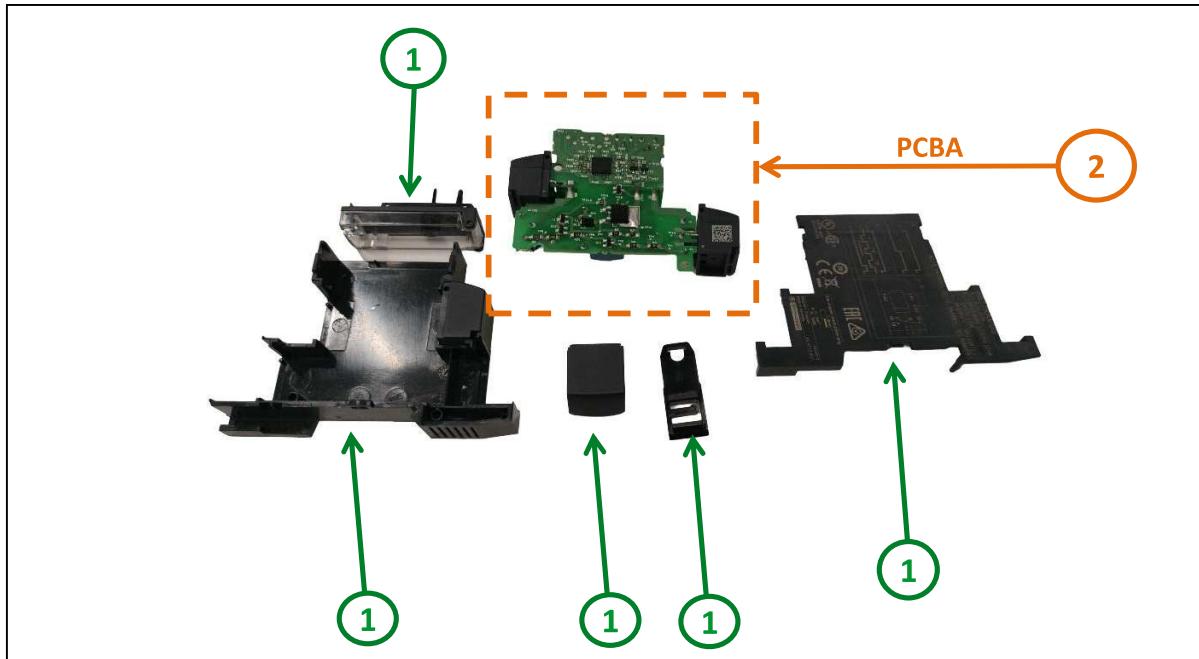

HAZARD DUE TO INSUFFICIENT PROTECTION

- Implement all safety measures required by the applicable regulations and by the processes used to dismantle/disassemble and dispose of the product.
- Use all necessary personal protective equipment such as gloves and goggles.

Failure to follow these instructions can result in death or serious injury.

End of Life Instructions

Recommendation	Number on drawing	Component / Material	Weight (in g)	Comment
Potential hazards	1	Cover, Housing, Frontage, Glass	36.37	Plastic Parts
To be depolluted	2	Electronic Board (Communication) > 10cm ²	21.33	PCBA
Other		Screw, Terminal	9.49	Metal Parts

Product description

Manufacturer identification	Schneider Electric Industries SAS
Brand name	Schneider Electric
Product function	The product is a control relay with a time delay built in and the main purpose of the product is to time events in industrial automation system by closing or opening contacts before, during or after a set timing period.
Product reference	RE17RAMU
Total representative product mass	68 g
Representative product dimensions	90mm x 72mm x 17.5mm
Accessories	No
Date of information release	10-2025

Additional information

Legal information	This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE). The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.
In case of special transportation: transportation method	No
Recyclability potential	14% The recyclability rate was calculated from the recycling rates of each material making up the product based on REEECY'LAB tool developed by Ecosystem, for components/materials not covered by the tool, data from the EIME database and the related PSR was taken. If no data was found a conservative assumption was used (0% recyclability).
