

Product End of Life Instructions

Rope Pull Switch With Universal Support

Potential disassembly risks

The information provided in this document assumes that the product is completely de-energized and uninstalled (refer to the instructions provided in the appropriate product manuals).

Dismantling/disassembling the product may entail hazards caused by, for example, sharp edges, chemical aggression or ejected parts.

⚠ WARNING

HAZARD DUE TO INSUFFICIENT PROTECTION

- Implement all safety measures required by the applicable regulations and by the processes used to dismantle/disassemble and dispose of the product.
 - Use all necessary personal protective equipment such as gloves and goggles.
- Failure to follow these instructions can result in death or serious injury.

End of Life Instructions

Recommendation	Number on drawing	Component / Material	Weight (in g)	Comment
To be dismantled	1	Snap Hook, Universal Support, Plate, Screw	114.79	Metal Parts
To be dismantled	2	Transmitter Cover, Push Rope Cover & Casing, O-Ring	132.56	Plastic Parts
To be depolluted	3	Electronic Board (Communication) > 10cm ²	9.38	PCBA
Other		Liquid and pasty substances	0.1	Grease

Product description

Manufacturer identification	Schneider Electric Industries SAS
Brand name	Schneider Electric
Product function	The rope pull switch is commonly used as a safety or control device in industries or commercial to command the opening of a door. This product consists of a radio transmitter package and doesn't need wire or an external power supply. It is designed with universal mounting support for flexible
Product reference	XB5RP1US2
Total representative product mass	273 g
Representative product dimensions	H 143mm x L 56mm x D 38mm
Accessories	Accessories not required
Date of information release	06-2025

Additional information

Legal information	This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE). The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.
In case of special transportation: transportation method	Special transportation not required
Recyclability potential	44% The recyclability rate was calculated from the recycling rates of each material making up the product based on REEECY'LAB tool developed by Ecosystem, for components/materials not covered by the tool, data from the EIME database and the related PSR was taken. If no data was found a conservative assumption was used (0% recyclability).
