

# Product End of Life Instructions

## EcoStruxure Panel Server

## Potential disassembly risks

The information provided in this document assumes that the product is completely de-energized and uninstalled (refer to the instructions provided in the appropriate product manuals).

Dismantling/disassembling the product may entail hazards caused by, for example, sharp edges, chemical aggression or ejected parts.

### WARNING

#### HAZARD DUE TO INSUFFICIENT PROTECTION

- Implement all safety measures required by the applicable regulations and by the processes used to dismantle/disassemble and dispose of the product.
- Use all necessary personal protective equipment such as gloves and goggles.

**Failure to follow these instructions can result in death or serious injury.**

## End of Life Instructions

Recommendation	Number on drawing	Component / Material	Weight (in g)	Comment
To be depolluted	1	PCBA's	36.5	
To be depolluted	2	Battery	5	

## Product description

Manufacturer identification	Schneider Electric Industries SAS
Brand name	Schneider Electric
Product function	The PAS800 is an advanced EcoStruxure Panel Server that seamlessly connects wired and wireless IoT energy devices while delivering real-time monitoring, diagnostics, and long-term data logging for efficient energy management.
Product reference	PAS800
Additional similar product references	PAS800 PAS800L PAS600 PAS600L PAS600T PAS600LWD PAS600PWD PAS600LZ PAS602LWD PAS400
Total representative product mass	206 g
Representative product dimensions	H 93mm x L 72mm x D 70.2mm
Accessories	External antenna, CR:PASA-ANT1
Date of information release	04-2026

## Additional information

Legal information	This product family is in the scope of European Union directive 2012/19/EU on Waste Electrical and Electronic Equipment (WEEE). The product family must be disposed according to the legislation of the country. This document is intended for use by end of life recyclers or treatment facilities. It provides the basic information to assure an appropriate end of life treatment for the components and materials of the product.
Recyclability potential	1% The recyclability rate was calculated from the recycling rates of each material making up the product based on REEECY'LAB tool developed by Ecosystem, for components/materials not covered by the tool, data from the EIME database and the related PSR was taken. If no data was found a conservative assumption was used (0% recyclability).
