

babyTWS

La linea **babyTWS** è nata per soddisfare quelle esigenze dove è necessario l'utilizzo di una colonna compatta e dalle elevate performance ottiche ed estetiche.

Disponibile nel colore grigio, la gamma **babyTWS** è particolarmente adatta all'utilizzo in ambientazioni di carattere civilistico in cui la segnalazione luminosa è importante ma dove un basso impatto a livello estetico è fondamentale.

babyTWS dispone inoltre di un modulo acustico e può essere utilizzata con tutta la gamma di accessori **TWS**.

babyTWS

The **babyTWS** range has been developed to fulfil all applications where a compact-size stacklight is required, and where aesthetic is a must.

Available in gray, the **babyTWS** range is particularly suitable for use in civil environments where the signaling function is important but where the overall appearance of the stacklight shall remain minimal.

Can be complemented with a sounder module and can be used with the complete range of **TWS** accessories.

babyTWS

Le **babyTWS** a été développé pour répondre à toutes les applications où il est nécessaire d'utiliser une colonne lumineuse de taille compacte, et où hautes performances optiques et esthétiques sont indispensables.

Disponible en gris, la gamme **babyTWS** est particulièrement adaptée pour une utilisation en environnements civils où la fonction de signalisation est importante, mais où l'aspect global de la colonne lumineuse doit rester discret.

Le **babyTWS** peut être complété avec un élément acoustique et peut être utilisé avec la gamme complète d'accessoires **TWS**.
