

Shield termination WINSTA® MINI 5-pole

Put your trust in tried-and-tested accuracy for the electrical installation in your project: The shield termination from the WINSTA® MINI product line. An extensive range of accessories rounds out the WINSTA® product line from WAGO. Particularly where space is tight, our smallest pluggable connection system, WINSTA® MINI, conveniently displays its advantageous properties. It saves space, and, thanks to Push-in CAGE CLAMP® spring pressure connection technology, it also saves time, since the installation is low-maintenance and requires no screw connections.

WINSTA® MINI solutions for your electrical installation – protected against mismating and maintenance-free

The WINSTA® Pluggable Connection System is perfectly tailored to the very strict requirements of building installation. It makes electrical installation pluggable, and consequently faster, more reliable, and error-free. Use of this pre-assembled system decreases assembly times and installation errors at the construction site. Now you can also reduce installation costs without compromising quality and safety: The WINSTA® MINI accessory with protection against mismating reduces the need for servicing and prevents unnecessary downtime.

- easy tool-free operation, a wide range of coding options
- quick replacement of defective units during ongoing operation
