Cover WINSTA® MINI 4-pole

When using the cover from the WINSTA® MINI product line, zero-defect electrical installation is guaranteed. You can rely on the quality of WINSTA® components from WAGO for your electrical installation accessories too. Due to its particularly small dimensions, our WINSTA® MINI Pluggable Connection System with Push-in CAGE CLAMP® spring pressure connection technology is especially suitable in very restricted spaces, i.e., for connections when very little room is available.

Push-in CAGE CLAMP® spring pressure connection technology – pluggable installation instead of laborious screw connections!

The WINSTA® Pluggable Connection System is ideally tailored to the very strict requirements of building installation. It makes electrical installation pluggable, and thus more efficient, even more reliable, and error-free. Using this pre-assembled system decreases time spent on assembly and installation errors at the construction site. Choose quality and durability – the WINSTA® MINI accessory with protection against mismatching from WAGO makes the installation of electrical components visibly easier.

- consistent IP40 protection
- convenient installation and commissioning
